

HOW TO PREPARE FOR YOUR UPCOMING RECORDING STUDIO SESSION:

If you have instrumental tracks you plan to record to, send WAV files via email to info@lockcitymusicgroup.com - or **if you are sending full stems**, send us a zip file via [WeTransfer.com](https://www.wetransfer.com) to info@lockcitymusicgroup.com.

If you have a song already written and are looking to get the instrumental built out by one of our producers, send the following information in a single email ahead of your session to info@lockcitymusicgroup.com:

- lead sheet with key & time signature, chord changes, any important melodic notation, bar numbers, and lyrics underneath as markers
- rough demo recording (voice note or simple DAW recording is okay) of you vocally performing the song with any musical elements you are able to provide as a guideline
- link to a Spotify playlist with 3-5 song references for how you'd like your music production to sound

Type out your song lyrics with form notes listed above each section (ie. verse, chorus, bridge, etc.), and bring 2-3 hard copies to your session.

If you have any past music releases available online, send the Spotify link to info@lockcitymusicgroup.com so our team can get a feel for your sound and prepare for your session accordingly.

Figure out your travel plans to our location ahead of time to ensure a prompt arrival.

Come warmed up and hydrated!
